### DETAILED ACTION

1. ~~14~~ Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-22, drawn to an entropy generator, classified in class 708, subclass 250.
- II. Claims 23-30, drawn to a robust random number generator, classified in class 708, subclass 254.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination (Group II) does not require the particular entropy generator of the subcombination (Group I) as claimed for patentability because claims to both the combination and subcombinations are presented and assumed to be patentable. The omission of specific structures of the subcombinations in the combination as recited in independent claims 23 and 27, is an evidence that the combination (Group II) does not rely on the details of the specific subcombination (Group I), for patentability. In addition, the subcombination (I) has separate utility for generating entropy. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
